CONTENT STANDARD	Geographers use published maps, sketch (mental) maps, and other geographic representations, tools, and technologies to acquire, organize, process, and report information from a spatial perspective.	Geographers use published maps, sketch (mental) maps, and other geographic representations, tools, and technologies to acquire, organize, process, and report information from a spatial perspective.	Geographers use published maps, sketch (mental) maps, and other geographic representations, tools, and technologies to acquire, organize, process, and report information from a spatial perspective.	Geographers use published maps, sketch (mental) maps, and other geographic representations, tools, and technologies to acquire, organize, process, and report information from a spatial perspective.	Geographers use published maps, sketch (mental) maps, and other geographic representations, tools, and technologies to acquire, organize, process, and report information from a spatial perspective.
CONTENT OBJECTIVE:	SWBAT demonstrate comprehension of continents and oceans (map/globe) using packet with questions.	SWBAT demonstrate comprehension of how to use a map grid to located places on map using fill in the blank questions.	SWBAT demonstrate comprehension of locations of continents and oceans on map by writing/drawing a map of the world by memory.	SWBAT demonstrate comprehension of how to use latitude and longitude coordinates to find absolute location using map of Australia	SWBAT demonstrate knowledge of how the lines of latitude and longitude measure using map of Australia
Measurable Outcome:	Daily geography sheet highlighting continents/oceans 70% accuracy	Daily geography sheet Australia 70% accuracy	Map should have all continents and oceans depicted	Questions answered with 100% accuracy	Questions answered with 100% accuracy
LANGUAGE OBJECTIVE:	SWBAT orally explain the location of continents/oceans using sentence stems _____ is located in the _____ hemisphere.	SWBAT orally explain how to use a grid to locate places using a map of Australia.	SWBAT orally explain the locations of continents and oceans on their map during presentation to class. South America is south of North America	SWBAT orally give the coordinates of places using latitude and longitude using map of Australia.	SWBAT orally explain how longitude and latitude lines run and measure using sentence stems. Longitude lines run _____ and measure _____. Latitude lines run _____ and measure _____.
Vocabulary:	South America North America Africa Europe Asia Australia Antarctica	Pacific Ocean Atlantic Ocean Arctic Ocean Southern Ocean Indian Ocean	Equator Prime Meridian	Latitude Longitude	Continents/oceans quiz
